

HERCULES

GLASS SURFACE TOWEL WARMER

A stylish and sleek tempered-glass towel warmer with a built in hot air convector fan and energy efficient design for low running costs, rapid room warmth and even drying for towels, every time.

Featuring Haverland's latest convection technology, the Hercules electric towel warmer warms up the air and circulates it around the room for quick, even heat. The wider surface area of the glass panel and 2 towel bars quickly dries and warms towels.

Its striking designer looks and ultra slim profile will make Hercules a feature point of any contemporary bath or shower room, whilst providing optimum warmth and comfort.

HAYERLAND®

STRIKING DESIGN AND LCD DISPLAY

Tempered glass available in white, with an ultra slim profile and 2 stainless steel towel rails. Attractive LCD display for easy access to controls.

EXCEPTIONAL COMFORT

Built in hot air convector fan warms the surrounding air in the room distributing warmth evenly for optimum comfort and wellbeing. Towels will also dry and warm up quickly and evenly, without affecting the room temperature.

MULTIPLE ENERGY EFFICIENT FEATURES

Daily, weekly and weekend programming options and Open Window detection function enable you to reduce unnecessary energy use and stay in control of your bills.

ADDITIONAL FEATURES:

- Built in hot air convector fan (1000 W)
- 2 towel hangers
- Accessory kit included
- Safety limiter
- Power cord (UK plug not included)
- Class II – IP 24 rated
- 2 year guarantee
