

 Electric Radiator

# RCMS

*The comfort you need*

Electric Radiator  
**RCMS**

**Power, economy and control  
You've got it all!**

With a minimalist design and equipped with 21st century technology, you get more power in less space, thanks to its **150 W per element**.

Thanks to our exclusive **consumption control function**, you will be able to know in real time the electricity consumption of your RCMS radiators to maximise savings without sacrificing comfort.

Intuitive controls make it easy for you to programme your **RCMS** and use all its functions.

# SPECIFICATIONS & FEATURES

- Bespoke programming.
- Manual or automatic mode.
- 3 modes: comfort, economy and anti-freeze.
- High-quality aluminium elements.
- Dynamic fluid with high thermal inertia.
- Precision PID digital chronothermostat  $\pm 0,2^{\circ}\text{C}$ .
- Safety thermal limiter.
- Daily and monthly consumption reports.
- Power cable with plug included.

Reference	Power (W)	Voltage	Dimensions (mm)	Fins
RCM4S	600	230	435x580x100	4
RCM6S	900	230	595x580x100	6
RCM8S	1200	230	750x580x100	8
RCM10S	1500	230	912x580x100	10
RCM12S	1800	230	1070x580x100	12
