HEAT RADIATOR

Simply Bluetooth®

¡Clever electric heating, at it's **most simple**!

With a single control you will have an analogue radiator with wireless conectivity. It incorporates a high precision electronic thermostat with Bluetooth® technology. Suitable to be used with external controllers

Thanks to our exclusive Bluetooth® pairing system, you can easily connect your **Simply radiators** from any smartphone or tablet.

You can manage its programming from your mobile or tablet. Connect the radiator to our **Haverland BT App** and upload the selected schedule. You can also download and existing schedule from the radiator to your App!
