3. RADIATOR CONNECTION

3.1 APP PERMISSIONS

Once you have created your schedule press the "Connect" icon and give the App permission to use your Bluetooth by pressing "OK".

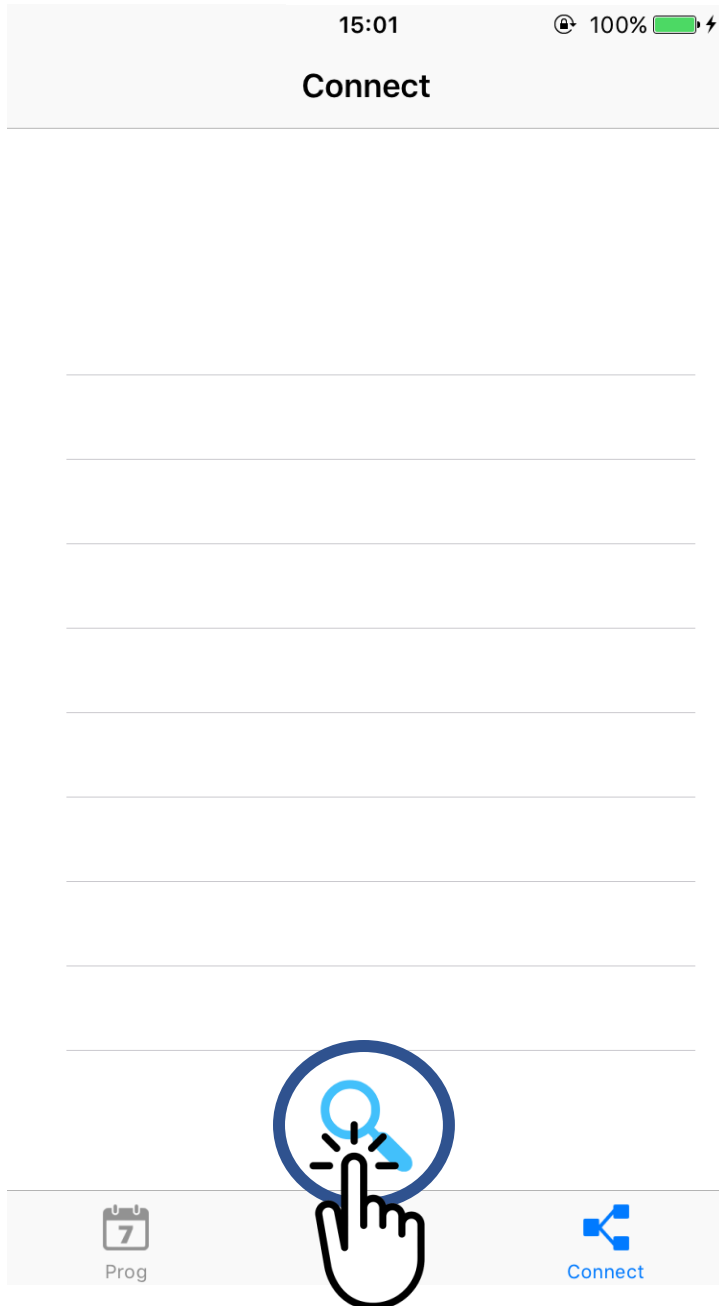

4.2 CONNECT RADIATOR

Turn the control knob to the AUTO position, the Bluetooth light will start flashing.

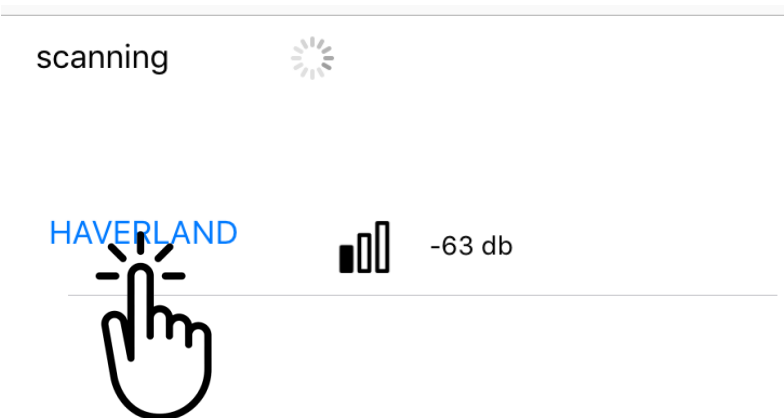

If the blue light is not flashing, turn the knob to the opposite direction and back to AUTO until it flashes.

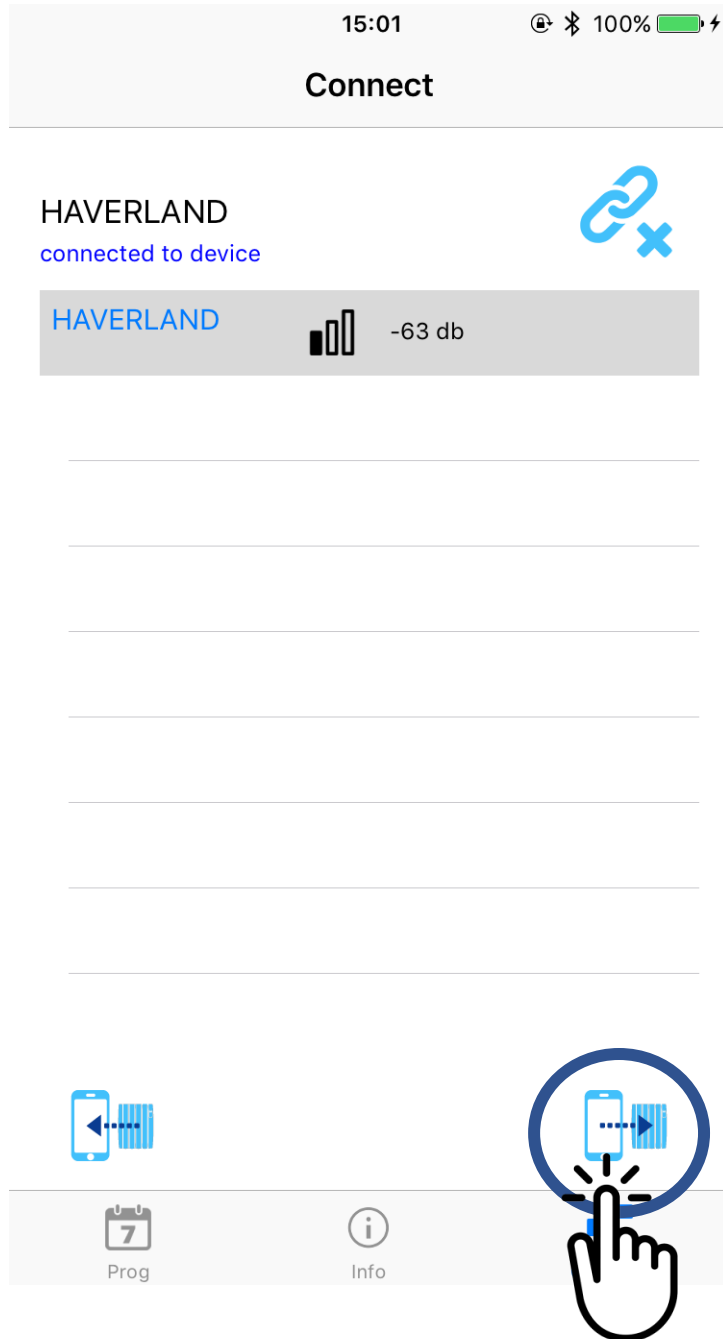

4.3 LINK THE RADIATOR

Press on the search icon (magnifying glass) in the app.

Then select the radiator that you wish to connect to the App.

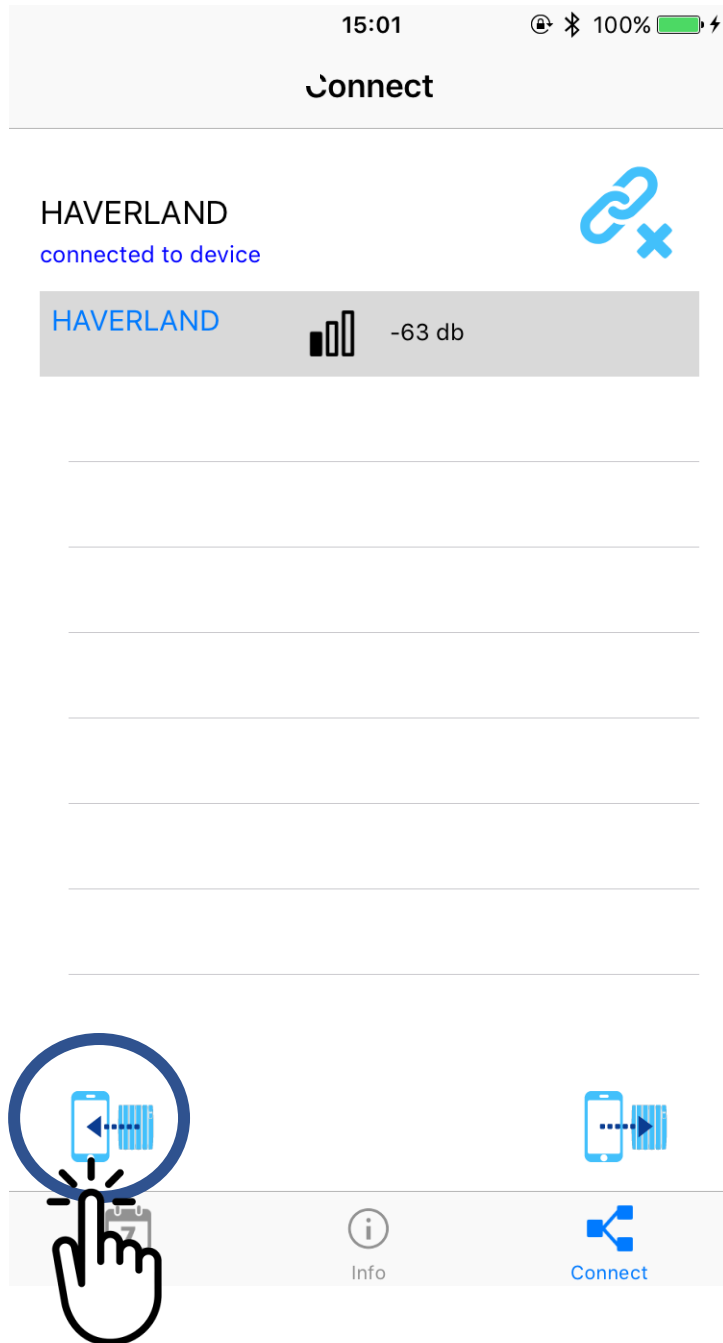

4.4 UPLOAD YOUR SCHEDULE

Once connected, press on the Upload icon to copy the schedule created on the App to the radiator.

Please leave the radiator on AUTO mode to follow your schedule.

4.5 DOWNLOAD YOUR SCHEDULE

Once connected, you can also download the schedule from the radiator to the App.

Once downloaded onto the App, the schedule will be shown in PROG.

If you wish to copy this schedule to a different radiator please repeat steps shown in 4.4. Upload your schedule.
